

## PASSION – “FROM BEE TO BOTTLE”

At HoneyKist we are more than just a business...we are a Family! The strength of the beehive is directly related to the “Brood strength” (number of young worker bees); which in turn is directly related to the quantity and quality of the honey produced. The stronger the hive (Family) the more it thrives and the greater the production. From the beginning we have passionately believed that the stronger the family ties and bonds, the more the entire family/community and the business thrives and the greater the results!

Established in 2010, HoneyKist Apiaries (HKA) Limited is a Jamaican born family-owned and community oriented business that grew from a cottage-industry enterprise and developed based on a belief that the purest and healthiest foods are those which have been provided by Nature. From this vision emerged a true passion and desire to create premium, innovative, all natural Jamaican products that are not only good, but also good for you! It is about once again bringing that pure natural goodness and flavour to our tables, whilst restoring and maintaining our harmony with nature, the surrounding community and its environment.

This is reflected in not only how we set-up and manage our apiaries, handle our bees, and reap our honey; but also, in how we process our products. We work with and within the community to ensure the quality and freshness of the local fruits, vegetables and spices we incorporate in our products; as well as to support the community’s growth and development.

HoneyKist has four apiaries (approx. 200 hives) located in the sun-drenched countryside of Jamaica - from the flourishing low grounds of Clarendon and St. Elizabeth to the cool blossoming hillside of Manchester. However, at times we also purchase some of our raw honey from our local bee farmers as well. The natural lush beauty and warm climate are the key ingredients in our superior pure raw Jamaican honey. Our finest quality, 100% Jamaican honey is harvested at the peak of maturity; and in order to guarantee our quality, we ensure our farmers share our beliefs and passion as well. Therefore, our honey is selected only from those hives which are strong and flourishing ensuring that our bees remain healthy and every drop of honey harvested is of the highest standard. Every batch is tested for purity and moisture content and never blended or diluted in any way. All natural, no artificial flavours or additives: our natural honey products are never treated or processed in any way that would affect or disrupt the balance of their natural nutrients.

The Jamaican countryside and its local farmers is also the source of the other natural ingredients used in our value-added honey products. It is from its bounty that we gather our raw materials and combine them to make one of the most unique and premium quality products – our **Honey Fusions** which is a clear “Artisan Flavoured Honey”.

With a base of 100% pure, natural raw Jamaican “Wild Flower” honey; our **Honey Fusions** are infused with just a “chups” (small kiss) of our unique JAMAICAN fruits, vegetables and spices. They are currently available in five distinctive and different flavours: Ginger, Lime, Jamaican Blue Mountain Coffee, Pimento/Allspice, and Habanero/Scotch Bonnet Pepper.

With Honey Fusions anyone can cook like a gourmet chef! Using our flavoured honey is simple and does not require long hours of prep time in order to “gourmetize” you dishes. Just add before or after you have prepared your entrée; mix into your salad dressings; or drizzle on your appetizers. Available in 145g (5oz) and 250g (9oz) bottles, HoneyKist Artisan Flavoured Honeys add that extra special something to all foods.

So what are you waiting for - **EMBRACE A LIFE FULL OF FLAVA!** Honey is not just for Tea anymore! Sweeten your favourite cocktail, lemonade and other beverage; Drizzle it on fruit and cheese; or Dip a biscotti or cracker; Pour it on your toast, pancakes and waffles; Spice up your best chicken, seafood, pork and vegetable recipes; Baste your ham, turkey and duck; Add zest to your salads; Zing to your barbeque and grill; and Zip to your yogurt, ice cream or other desserts. Everything tastes better when you add **Honey Fusion** Flavoured Honey!

Following in the tradition of other high quality Jamaican brands: **our Honey Fusion Flavoured Honeys are all natural; healthy; convenient; versatile; unique; affordable and full of unprecedented aroma and flavour!**

From “**Bee to Bottle**”, our passion is evident. We take care to ensure our product is always a distinctive rich, smooth golden honey product that is pleasing to the eyes, nose and palette. This passion of ours has resulted in a premium product that is **Simply...Honey, Simply...Jamaican and Simply...the Best!**
